EDOGAWA GOSEI launches the New “LUBRI-ONE”!
Lubricating Paint; Complied with the REACH regulation on PFOA
less than 25 ppb & Increased further slidability

1-part / Modified Epoxy Resin / Baking

EDOGAWA GOSEI CO., LTD. (Head Office: Saitama, Japan / CEO: Koji Shinohara), has renewed “LUBRI-ONE”, the paint with excellent lubricity applying machine parts to allow smooth movement even without lubricant, as we made it not only complied with the REACH regulation which limits the new restricted substance “PFOA” to 25 ppb, but also improved its functionality further.

Lubricating paint “LUBRI-ONE” has been highly reputed among the market as the product provides the high hiding power for an aesthetically appealing finish with its excellent lubricity that suppresses the coefficient of dynamic friction to 0.080 or less, high abrasion resistance and adhesion, since the launch. Since July 4, 2020 when “PFOA (perfluorooctanoic acid) has become a new restricted substance under the REACH regulation, we have developed our research in terms of production engineering and reselection of material and compounding in order to meet the market demanding for the higher safety products, accords to the legal compliance and aim the further improvement of its functionality. As a result, we achieved to content “PFOA” less than 25ppb, the New “LUBRI-ONE” is complied with the environmental restriction and further excellent slidability.
